

ALLIED HEALTH & PRE-NURSING

The Medina County Career Center's Allied Health & Pre-Nursing program introduces students to career opportunities in the medical field through in-classroom training and out-of-classroom clinical experiences. It provides a great pathway for students interested in obtaining any career in health care. Suggested prerequisites include biology, math and computer literacy. Students are encouraged to continue their education at the post-secondary level.

Curriculum

- Electrocardiography
- Medical ethics and medical law
- Sterilization techniques/infection control
- Pre-nursing
