

AUTOMOTIVE COLLISION TECHNOLOGY

Medina County Career Center's ASE and NATEF certified Automotive Collision Technology program teaches students how to repair, refinish and restore the body of damaged vehicles. This includes trim and glass, safety and pollution prevention, plastic repair and EPA 6H Rule technical training.

Curriculum

- Fundamentals of metal work
- Painting and refinishing
- Unibody construction and alignment repair
- Computerized damage appraisal
- Business and office procedures
- Parts and glass replacement
- Fiberglass, sheet metal and plastic repair
- Frame alignment

Some Employment Opportunities

- Collision repair technician
- Refinish technician
- Frame technician
- Restoration
- Detailer
- Estimator
- Internship

Certification*

- ASE Student Certification - Entry Level
- OSHA 10-Hour General Industry (Automotive)
- EPA 6H Spray Gun
- Plio-Grip Plastic Repair
- Safety, Pollution Prevention and Soft Skills
- CPR/First Aid

**Students who meet certification criteria will have the opportunity to test in their CT program.*

Facilities and Equipment

Students learn in our newly renovated classroom. Some equipment includes:

- Virtual reality paint simulator
- MIG and STRSW resistance metal welders
- Nitrogen plastic welder
- Down draft spray booth systems
- Laser guided measuring systems
- 40 ton frame machine
- Metal fabrication equipment

Visit mcjvs.edu for more information about our Automotive Collision Technology program.
