

CAREER EXPLORATION

The Career Exploration program introduces students to a variety of career technical programs. To prepare for future vocational and career experiences, students learn professional communication techniques and employability skills including problem-solving, leadership and collaboration. This program can provide work placement and job site opportunities.

Curriculum:

- Creativity, innovation, motivation
- Culture & communication
- Financial independence
- Postsecondary and career preparation
- Workplace behaviors (soft skills)
- Workplace fundamentals and personal wellness
- Workplace technologies (hard skills)

Certifications:

- CPR / First Aid
- OSHA 10-Hour
- Telephone Doctor (Customer Service)

Opportunities:

- Customer Service
- Food Service
- Manufacturing
- Retail Service

Work-based learning program; Associate School referral required
