

COSMETOLOGY

The Medina County Career Center's Cosmetology program teaches students the art and science of hair, skin and nails. Training occurs in the school's renovated lab setting and Today's Image Salon. Today's Image Salon is a full service salon operated by students and open to the public. Students have a full academic schedule in which many courses are tied directly to the cosmetology curriculum. To be licensed, students must pass the State Board of Cosmetology exam.

Curriculum

- Professional ethics
- Decontamination and infection control
- Professional image
