

MEDIA PRODUCTION

Medina County Career Center's Media Production program helps students gain the knowledge and skills necessary to pursue a career in the arts and communication industries. Students enrolled in this program focus on video production, digital photo editing and retouching, digital photography, video editing, digital cinema production and more.

This program is one of the components of the Visual Media Imaging (VMI) Academy, along with Digital Design and Graphic Arts and Printing Technology. This academy provides a collaborative, real-world experience that helps students build skills in all three areas of study.
